A Poem for Today

THE DAY IS DONE

By H. W. Longfellow

THE day is done, and the darkness
Falls from the wings of night,
As a feather is wafted downward
From an eagle in its flight.
I see the lights of the village
Gleam through the rain and the mist,
And a feeling of sadness comes o'er me
That my soul cannot resist.

A feeling of sadness and longing,
That is not akin to pain,
And resembles sorrow only
As the mist resembles the rain.

Come, read to me some poem,
Some simple and heartfelt lay,
That shall soothe this restless feeling,
And banish the thoughts of the day.

Not from the grand old masters,
Not from the bards sublime,
Whose distant footfalls echo
Through the corridors of time,

For, like strains of martial music,
Their mighty thoughts suggest
Life's endless toil and endeavor,
And tonight I long for rest.

Read from some humbler poet,
Whose songs have risen from his heart
As showers from the clouds of summer
Or tears from the eyelids start;

Who through long days of labor
And nights devoid of ease
Still heard in his soul the music
Of wonderful melodies.

Such songs have power to quiet
The restless pulse of care
And come like the benediction
That follows after prayer.

Then read from the treasured volume
The poem of my choice,
And lend to the rhyme of the poet
The beauty of thy voice.

And the night shall be filled with music,
And the cares that infest the day
Shall fold their tents like the Arabs
And as silently steal away.

LARGE VOTE POLLED.

A rousing vote was polled at the city election on Wednesday, as evidenced by the fact that 294 voters wended their way to the City Hall to cast their ballots for their respective favorites. Of the number cast, 14 were counted as illegal, because of improper markings, and were thrown out.

ELECTION DAY WAS QUIET.

Election day passed off quietly, not being marked by any disturbances. Quite a crowd congregated at the polls throughout the day, but everyone was good natured and candidates when approached seemed sanguine of success.

COUNTING WAS SLOW.

The counting of the poll list and the number of ballots in the box took until eight o'clock, when the checking of the vote commenced and it was fully 10:30 o'clock before the result was known. Throughout the counting, Mr. Greene took the lead and maintained it. Towards the end of the count the Greene votes rolled out rapidly and his lead was materially increased.

After the count was made the inspectors and clerk were busy for nearly an hour making out the necessary certificates of election and attending to the other clerical work as prescribed by law.

SOME SWORN IN.

Quite a number of candidates were on hand, including Mayor Smith and the new Mayor, Mr. Greene. The former gave Mr. Greene the oath of office in the presence of some fifty or sixty people.

Others sworn in were Councilmen Seaman and Douglass, School Trustee Rogers and Tax Assessor Geo. F. Smith.

It was decided to hold a meeting of

MARSHAL NOT

YET APPOINTED.

Zuber and His Force Still Hang On. Friends of the Marshal Think He Will Receive Appointment.

Mayor Greene has given Marshal Zuber authority to hold his position for the present, together with other members of the force, until he decides what he intends to do.

Friends of Mr. Zuber are confident that he will receive the appointment, and they are doing what they can in his behalf.

The old council, three weeks ago, cut the salary of the Marshal from \$50 to \$40 per month, but this amount is considered to be entirely too small for the amount of work involved. Marshal Zuber thinks that the new council will agree to make the Marshal's salary \$50 per month.

Making Long Trip.

The gasoline power boat Penobscot reached Savannah on a cruise from Rockland, Maine, to Miami, Florida, a few days ago, and has left on her southward trip. She is expected in Daytona soon, and will no doubt excite considerable attention. The boat is in charge of Capt. Willis Williams, C. D. Tripp is engineer, F. R. Burr is second engineer and George Blood, steward. The craft is fifty-six feet long and ten feet beam. Her engines are 40-horse-power, four-cycle, four-cylinder Knux. D. L. Fuller, representing the Camden Anchor-Rockland Machine Company, the builders of the boat, is accompanying it on its trip.

Police Officer W. E. Lastinger is in DeLand on business before the Criminal Court.

Mrs. S. J. Rockford and son, of Chicago, returned Wednesday afternoon from a trip to Miami and are again pleasantly located at The New Seaside Inn, where they expect to spend the balance of the season.

The new City Council at the City Hall, this afternoon at 5 o'clock, at which time the other successful candidates will be sworn in.

FINE CONCERT

RENDERED.

Westminster Glee and Concert Co. Give Fine Entertainment Last Night.—Again Tonight.

The Westminster Glee and Concert Company made its appearance at the Opera House last evening. Those who compose the company proved conclusively that they are artists of rare ability. The Concert Company is decidedly the best that has ever visited Daytona. Every number was loudly applauded.

The boy sopranos were exceptionally good, and Dudley Causton, the humorist, kept the audience in a continual roar of laughter.

Madame Marie Hooton, an eminent English contralto, was greatly enjoyed. Her voice is a deep contralto, under good control, and her enunciation is a model for singers.

The concert company will again appear at the Opera House this evening and it is thought that the house will be well filled.

Has Taken Charge.

Ex-Mayor Charles L. Smith was on hand early this morning at the Opera House block. Mayor Greene, who was elected yesterday, put in his appearance about 9:30 o'clock, and the effects of the office were turned over to him. The new Mayor has not yet decided where he will have his office, but it is more than probable that he will have a desk located in the City Hall.

The stormy weather of Monday did considerable damage to the Clarendon pier at Seabreeze. Quite a number of piling were washed away from the bridge.

Drs. Atwood and Rawlings, two well known local physicians, have formed a partnership. The former has been practicing here for a long term of years, while Dr. Rawlings came here about a year ago from Raphine, Va., and has given close attention to his profession.

A Joke That Failed To
Miss Adelbert had just returned from
a vacation spent at a large resort on
the Maine coast. In recounting her
experiences she talked some of the
benefit of a cousin, a quiet person
who was visiting her city relatives on
the first time in many years.

"There was just one store in the
place," said Miss Adelbert, "and they
kept everything—that is, everything
they had to keep. One day I went in
to buy some soap, and just on a ven-
ture I asked the clerk if they had
browning. He stared at me a second,
then went off and looked under the
counters and on the shelves. Presently
he came back and said: 'No, miss, we
ain't got none. We got blacking and
we got bluing, and we got whitening, but
we ain't got a bit of browning in the
store.'"

Miss Adelbert had to make several
protests to assure her audience that
this really happened. Finally the clerk
in asked gravely, "But, Cousin Bert,
why didn't you say browning in the first
place?" Youthful Companion.

Two Apologies.

Colonel L. B. Pense, who was for a
long period editor and publisher of the
Woonsocket Reporter, was requested
for many quiet sayings and witticisms
bonhomie. Upon one occasion he at-
tended a crowded reception in Har-
vard hall, staying quite late, was sur-
prised to find his hat had been taken
and a very poor substitute left in its
stead. The following night he called
the attention of his readers to the fact
in the following manner: "The gentle-
man who inadvertently took our new
silk tie and left a very inferior article
in its place will do us infinite kindness
by returning ours. He will receive our
warmest thanks and two apologies—an
apology for the trouble we have given
him and the apology for a hat he has
left us."

He Surrendered.

She: If you could have one wish,
what would it be? He: It would be
that—that—oh, if I only dared to tell
you what it would be! She: Well, go
on. Why do you suppose I brought up
the wishing subject?

A Seat in Church.

Visitor: Will you tell me where I
shall find a seat? Verger: Well, sir,
there's a good when visitors in in-
terference the no, so sit whaur ye can
see yer umbrella.—Punch.

Fixed.

"Why don't you go to work?" de-
manded the housekeeper.
"Well, yer see," began the gray hair-
ed old loafer, "I got a wife and three
children to support."
"But if you don't work how can you
support?"
"As I wuz a sayin', lady, I got a wife
and three children to support me."—
Philadelphia Ledger.

Cause For Fear.

Second to duelist, who on confront-
ing his adversary has suddenly grown
pale and is only just prevented from
failing—Take courage, man. I know
your opponent is going to fire in the
air. Duelist—That's just what makes
me afraid. He's such a notoriously bad
shot.

Always Broke.

Shadbolt: Your finances are at a low
ebb again, are they? Dinguss—Ebb?
No; that would indicate that they're
sometimes at the flow, which they never
are. My finances are at their normal
and unvarying level.—Chicago
Tribune.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its fairest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of anelastic forest trees, and among these trees is the town of to-day, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lordly live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bayas and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the amplexipalis climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, untried and shelled roads and streets, rendering it the

Wheelman's Paradise
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lilly Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia at

and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Joddall, Seabreeze and Silver Beach which are properly a part of the town and population.

Daytona Beach
lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect as Daytona Beach.

Automobile Race Meet.
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles racing with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebttide, measures about 500 feet, and the average depth of the surf measures about two feet from the ocean from one to two feet deep under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the gray-haired veteran of many summers, can enjoy the luxury of a sea bath throughout the larger part of the year while the strong and expert swimmer can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula
lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, a opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature

At Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abode of wealth and culture are multiplying. Seabreeze (City Beautiful) and Joddall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of the gamey fish in an afternoon. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river. Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.
